

# Avemco Insurance Company Offers 5% Discount for Xwind Training

May 22, 2008

There is nothing better than saving money, having fun, and becoming a safer pilot in the process.

Avemco Insurance Company, a well known direct insurance provider for General Aviation, now offers a 5% annual premium discount to pilots who complete Xwind training.

The signed certificate of completion provided by Xwind can be faxed to Avemco as evidence of completion.

Crosswinds and gusts continue to be the number 1 and 2 cause of weather related accidents every year. Even if you and I avoid a crosswind accident, we are all paying for the very high cost of this type of accident. Avemco sees Xwind as a way to reduce risk and increase safety.

You just might pay for your entire Xwind training session with the help of Avemco!

Xwind is a growing part of aviation safety worldwide and we are very excited that Avemco supports our effort to help pilots achieve crosswind landing excellence.

Please visit the Avemco website for more details:
